

Funding Assistance

Alta staff have assisted jurisdictions across the country in winning over \$75 million in grant funding.

Funding sources range from federal TIGER grants and SAFETEA-LU funds to state, regional, local, and private sources. Alta staff can complete a range of tasks for your project, from full-fledged preparation of the grant application to writing portions of the scope, providing mapping and graphics assistance, assisting with document review and quality control, and preparing environmental documentation and preliminary design.

Alta won \$800,000 in grant funding for the Trolley Trail in Clackamas County, Oregon.

Recent successes includes a \$300,000 grant application for Santa Clarita, California's Safe Routes to School program.
